

Julian Ollesch received his Ph.D. with highest honours in 2006 of the Ruhr-University Bochum, Germany. In 2007, he joined Stanley Prusiners Institute for Neurodegenerative Diseases in San Francisco, CA, USA for structural prion research. In 2009, he continued structural research on Alzheimer's dementia at Marcus Fändrich's group in Halle/Saale, Germany. In 2010, he joined the Protein research Unit Ruhr within Europe, PURE at the Biophysics Department of the Ruhr-University Bochum, Germany.

Margot Heinze received her B.Sc. in 2011 at the Heinrich-Heine University, Düsseldorf, Germany. She currently pursues her M.Sc. investigating spectral biomarker candidates in body fluids with high throughput-FTIR spectroscopy.

H. Michael Heise received his Ph.D. from the University in Kiel (Germany) in 1976 with subsequent positions at University of Western Australia (Perth), Federal Biological Research Centre, Federal Research Centre for Physics and Technology (Braunschweig) and Leibniz-Institute for Analytical Sciences – ISAS (Dortmund). He is honorary professor at the University of Applied Sciences of South-Westphalia in Iserlohn and has been with PURE at the Biophysics Department of the Ruhr-University since 2010.

Thomas Behrens received a medical and a postdoctoral master degree in Public Health. He has worked in occupational and molecular epidemiology in several institutes, incl. the Leibniz-Institute for Prevention Research and Epidemiology-BIPS in Bremen where, he also received a PhD in epidemiology and public health ('Habilitation'). He is a professor for Molecular Occupational Medicine and Public Health at the Ruhr-University, heading the Scientific Epidemiological Study Centre in PURE at IPA.

Thomas Brüning Graduate Degree in Pharmaceutics and Medicine, Occupational Medicine, Environmental Medicine, Habilitation Occupational Medicine. Project leader of several clinical studies. Initiator and PI research project 'Carcinoma of the Breast and Predictive Factors' by BMBF as part of the German Human Genome Project, Director IPA-Institute for Prevention and Occupational Medicine of the German Social Accident Insurance, Institute of the Ruhr-University Bochum. Founding Member and PI of PURE

Klaus Gerwert received his Ph.D. in 1985 (Freiburg), joined the Max-Planck-Institute in Dortmund 1986-1989, became Heisenberg-fellow 1990-1993, joining also the Scripps Research Institute, La Jolla, USA. In 1993 he was appointed at the Ruhr-University Bochum to hold the chair of biophysics. Since 2009, he is Max-Planck fellow at the Max-Planck Partner Institute PICB in Shanghai, China. His research focuses on mechanisms of membrane proteins using time-resolved FTIR and vibrational imaging of tissue and cells as diagnostic tools.
